Imagine having Death narrate the book and actually feel sorry for him! And the writing style was very reminiscent of classic literature. The author writes fantastic prose in a way few authors can in this post-modern era. The characters were drawn in such a rich way. Death's grim humor and genuine concern for humanity caused the book to touch my emotions in a way most books cannot. I guess I shall never tire of WWII stories. It is a period of history that repulses and intrigues me. Although this is fiction, I truly found myself caring about the characters. Death's continued foreshadowing of events to come were always executed at exactly the right time. I think this book can touch anyone who decides to read it, it does have some foul language, but I found that every use of it made sense. There were no sex scenes nor descriptive violence, but the book is harsh and real. Violence is there and unfortunately quite More for Ruth Hill I ended the book thief a long time ago, but I continued to post the review because, honestly, I don't know what I should write. You have ever happened to read a book and stayed stunned at the end you first needed to look at the space for a few minutes to take it, and then you found you unable to explain how, why ... what had happened? I can't say that many books did this to me. I'm sure I can count on the fingers of a mother, but the book's thieves did it for all the books out. How do you start reviewing such a book? I can't say that I loved it, or that I will recommend to everyone I know (because I will not), or that it was the best thing I already read (I'm not sure it was). It looks confusing, right? Let's see if I can explain. I never say that I loved or loved the book's thieves, because the words that would help me define how this book made me feel for being invented. When I started the word I really didn't know what to expect. Well, yes, I could have had some expectations because I knew I was about to read a bestseller that would soon be transformed into a movie, but still, I was quite innocent about it. After the first pair of pages I understood two things: 1. It would not be a book that I would recommend it? Because the style is highly metaphoric and experimental; It is a tape of speech figures, abstract ideas, dry humor, and precious writing of The Book Thief works very well. It's good, which I often felt forced to draw a notebook and write down whole quotes, or to be paragraphs But they don't ramot ramot and oirpa ed saloiag sad sneganosrep rarit somedop of a sehl-rad e read The Book Thief for how much the second half of the book made me cry. San, was a confusion. There were at least two scenes during which I cried so hard that I could not follow the lines more, and it was annoying because I had to keep reading. But no, I had to take a break to rub my eyes and blow my nose. Path ... is unbelievable what some books can do us, deadly. And it is not as if I did not know what would happen, because if there is something where death is not good, it is creating suspense. No, she tells her what will happen to the front. Still, when I reached this point in the novel, I was still shocked and needed time to process the information. And now I come to another device that many authors can pull: detaching the mystance in favor of simply telling you how it all will end, and still be able to keep it addicted to the last word. About the last word ... I was looking at him as if it could make more words appear in the pamigation. Anyway, so much to God I live alone, because if I still lived with my parents and any of them had entered the room and saw the state I was in and asked me "what happened?" It would probably have answered "what do you want to say about what happened? The book of the book of the book to learn whole pieces of heart. Show more by oana the rags spilled with this one! What a great story! I loved this title. This book was a light reading, flowing, and yet it was the kind of book that touched me inside and kept me thinking about the scene I had played on my head came to remember that it was actually part of "The Book Thief". I that the book painted an image of a very normal house in the second world war. The empathy, sympathy and humanity that was alive and bursting to the surface, calmly from its own accord, made me feel for every character in the book. All in a great reading. I would definitely recommend and not just for young adults. show more by Natalie I love this book so much I would like to be able to give you more than 5 stars. I was given as a gift and never heard of it at the time. I started reading and I couldn't stop... it wasn't done much until it was finished. It was unpredictable and the characters grow so much in you. Marckus Zusak is a fantastic writer and is a true storyteller. I was crying, but I was laughing.
